

leave the grid behind

We design unhurried journeys for people
who deserve more than an itinerary.

CORPORATE OFFSITES · ANNUAL COMPANY TRIPS · INCENTIVE JOURNEYS

Your team doesn't need another trip. They need to actually return.

40 hrs

of HR time, per trip

Most corporate trips follow the same script — six destinations in three days, a bus schedule instead of a breather, and a team that comes back needing a holiday from the holiday.

The photos look great. The people don't feel any different.

Meanwhile, someone in HR just spent forty hours coordinating hotels, buses, food counts, and complaints — on top of their actual job.

There is a better way to do this.

Five years on the ground taught us what travel gets wrong.

We've spent the last five years executing group journeys across India — thousands of departures, tens of thousands of travellers, groups of two to two hundred.

Somewhere along the way, we noticed a pattern. The rushed itineraries — ten places, no pauses — left people drained, not renewed. Time and money were being spent; nothing was being restored.

So we built a different model: slow travel. Fewer places, deeper experiences. Local food instead of hotel buffets. Conversations instead of checklists. We tested it — workations in the Himalayas, cultural immersions, devotional journeys — with the very people who needed it most.

It worked. And it became obvious who needs it more than anyone: the people living inside the grid. Corporate teams.

That's why Qridesc exists.

Three ways companies travel with us.

01

TEAM OFFSITES & RETREATS

2–4 days away for a team or department. Structured sessions in the morning, unhurried experiences after. Built for bonding that outlasts the trip.

02

ANNUAL COMPANY TRIPS

The whole company, moving as one — designed so a 40–person or 400–person group still feels like a gathering, not a procession.

03

INCENTIVE JOURNEYS

Reward trips for top performers, dealers, and channel partners. Premium, memorable, and worth striving for all year.

Prefer a classic, see-everything itinerary? We design those too — every journey is built around what your team actually needs.

Slow travel, seriously executed.

Fewer places, fully lived.

We don't count destinations. We design mornings without alarms, meals worth remembering, and evenings where the team actually talks.

Local, real, rooted.

Real culture, real food, real people — experiences a search engine can't book and a rushed itinerary can't hold.

Precision behind the calm.

Unhurried for your team. Meticulously scheduled behind the scenes — logistics, contingencies, escalations, all handled.

This is what we mean when we say slow.

We don't hand you a catalogue. We design around your team.

Destination lists limit imagination — so we don't keep one. Beaches, backwaters, hills, Himalayas, heritage towns; if your team can dream it, we can build the journey around it.

Every pace

SLOW IMMERSION OR
CLASSIC SIGHTSEEING

Every budget

ESSENTIAL · PREMIER ·
SIGNATURE TIERS

Every itinerary is curated on demand — designed from scratch for your team, your dates, your budget.

SAMPLE JOURNEY · TEAM OFFSITE · 3 DAYS · CALICUT → WAYANAD

The Wayanad Reset

DAY 1 — THE COAST

Arrive in Calicut. A cultural immersion through the city's legendary food trails; an evening with the fishing community as the boats come in. The team slows down before they've even noticed.

DAY 2 — THE CLIMB

Road journey up the Thamarassery Churam — nine hairpin bends into the hills. Check in at a nature-wrapped resort in Wayanad. Afternoon at leisure or a focused work block; evening bonfire and unstructured conversation.

DAY 3 — THE STILLNESS

No alarms. Plantation walks, quiet work corners for those who need them, a closing team circle. Depart rested — genuinely.

Full itinerary with stays, meals, and inclusions shared as a detailed document on request.

TWO OF OUR TESTED NORTHERN JOURNEYS — CONDENSED

The Kashmir Circuit

8–10 DAYS · INCENTIVE JOURNEY

**LAKES → MEADOWS → THE VALLEY ALMOST
NOBODY REACHES**

Srinagar's lakes and gardens, the meadows of Pahalgam and Gulmarg, and the rarely-travelled Gurez Valley near the last villages of India. A reward trip your winners will talk about for years.

The Spiti Expedition

10–12 DAYS · TRANSFORMATION JOURNEY

**ANCIENT MONASTERIES → THE HIGH VILLAGES
→ A NIGHT UNDER CHANDRATAL'S STARS**

High-altitude monasteries over a thousand years old, the world's highest post office, a night under the stars at Chandratal Lake. For teams ready to go far — in every sense.

These are illustrations, not limits. Every journey — length, route, comfort tier — is curated on demand for your group.

You make one decision. We handle every other one.

1

DISCOVERY CALL

Your team size, dates, intent, and budget. Thirty minutes.

2

ITINERARY & RATES IN 24–48 HOURS

A designed journey with transparent costs. Not a template.

3

REFINE & CONFIRM

We adjust until it fits. Then we lock every vendor, stay, and detail.

4

ON-GROUND EXECUTION

Gridesc's team travels with your group. Escalations, changes, midnight requests — handled without reaching your HR desk.

5

POST-TRIP CLOSE

A trip report and feedback summary delivered to HR. The file closes cleanly on your side too.

You could. Here's what it actually costs.

IN-HOUSE COORDINATION

40+ HOURS

- X 40+ hours of HR time across bookings, negotiations, and follow-ups
- X Vendor risk carried by your company — no-shows, quality gaps, disputes
- X One overloaded coordinator instead of one accountable partner
- X Generic package, because there's no time to design anything better

WITH GRIDESC

1 CALL

- ✓ One discovery call; your time investment largely ends there
- ✓ Vetted vendors, contracted rates, contingency plans — our accountability
- ✓ A dedicated team on the ground for the entire journey
- ✓ An experience designed for your people, not pulled off a shelf

Your HR team's job is your people — not bus timings.

leave the grid behind

Let's design your team's next journey.
